

HORIZON

425 / 111 mm

- Impact modified Polycarbonate Base and Diffuser.
- UV stabilized.
- Fixing tabs on the Diffuser help it to locate into the Base, prevent 'slipping' and ensure no damage is inflicted during maintenance.
- 2 x 20mm conduit entry points.
- Available with an Opal, Clear Prismatic and high performance Lumaax™ Diffuser.
- Ability to Metallize the Rim and the Base will give the look of a Metal Enclosure without the high cost.
- Range of Decorative Trims available to transform the look of the Enclosure.
- Now available with Sterilelux™ antimicrobial technology.

- TP(a) Diffuser • TP(a) Base
- 850 Glow Wire Diffuser
- 850 Glow Wire Base

Performance Capabilities

The Horizon / Lumaax, when using a 700 mA Tridonic Driver and Led Board, achieves **2250 lm**. Photometry results and LDT files are available upon request.

Product	Part Code
Horizon White Lumaax™	PHH001/002LED
